non-profit MBUG-PC is a friendly all-volunteer, California non-profit benefit corporation organized for educational purposes. We started back in 1983 with a few friends helping friends find solutions to their personal computer problems and have grown to a “circle” of hundreds. We incorporated in 1988 and have tax-exempt status under Federal Government Section 501(c)3.

mbug-pc We welcome anyone who wants to get more involved in the use of personal computers to our meetings and workshops.

We invite **ACTIVE participation** and encourage you to ask the experts questions, assist in presentations, share your knowledge with novices, exchange information with peers, write newsletter columns on technical and emotional subjects, come to board meetings, suggest new topics or formats and generally make this YOUR personal computer group.

venues Workshops and meetings are held at Pacific Grove Adult Education Center, Hilltop Park Center Monterey or Canterbury Woods Pacific Grove. For specific details check the MBUG-PC calendar of events in our Newsletter or website (www.mbug.org).

meetings Free and open to the public! On the first Friday of every month MBUG-PC volunteer-members, other experts and local professionals or representatives of major computer industry firms give presentations on software, hardware, the Internet, trends in the computing world, and more. There’s always time to “ask the pros” (or argue with them), share your knowledge, dispel your ignorance and learn from others among new friends. Enjoy free refreshments! **Enter our raffles for great prizes!**

workshops Free and open to the public! Our workshops provide you with informative presentations, time to ask questions or provide opinions, answers and solutions, swap stories and generally “talk computers” in a non-threatening, informal small-group atmosphere.

MBUG-PC volunteer-members and others run several common-interest workshops every month with different topics such as:

Computer basics (“Hands on Exploring” for beginners and those who just want to refresh their Windows skills)

Computer sights & sounds (understanding and using digital cameras, scanners and publishing software, playing and recording music, making your own website and using the Internet)

Computer genealogy (using your computer to explore family trees on the Internet with various software programs)

Computer hardware (installing, maintaining, repairing and upgrading your equipment and how to build your own computer)

newsletter If you join MBUG-PC you’ll get our local member-written newsletter. Real life, plain language columns on tips & tricks, solutions to problems and workshop summaries. Up-to-date news about viruses, hoaxes and reviews of software, hardware, computer books and much, much more.

help Our “F1 for help” network of MBUG-PC volunteers responds to individual member e-Mail, phone calls or questions in person at meetings and workshops. See the MBUG-PC Newsletter for available phone time schedules and other contact information.

membership You don’t have to join MBUG to enjoy our workshops or meetings, BUT ... if you join:

It’s CHEAP!

A bargain at just \$20 up to \$35 a year

It’s a BARGAIN!

Occasional discounts on computer software and a 15-20% discount on computer books at Borders.

It’s INFORMATIVE!

You’ll receive the action-packed, truly useful “MBUG-PC Newsletter” monthly

It’s WARM & FUZZY!

You’ll belong to a nice local group of ordinary folk like yourself who just want to know more about their own computers.
