(please do not call Cochise College)

Monthly Meetings

Join us the second Saturday of each month to learn more about your computer, hone skills you already have, or help others.

⇒ We support Macintosh, Windows, and Linux operating systems, and PDA.

⇒ We have groups for all levels from the very beginner to the professional.

⇒ See demonstrations of latest hardware and software. Find out what is hot and not in the industry.

Check outside of Room 313 Sierra Vista campus of Cochise College for the meeting room.

Schedule:

9:00 AM – 10:00 AM Beginners meeting

10:00 AM – 12 Noon General Meeting

12 Noon – 4 PM Digital Photography Meeting

information

Who we are!

Computer user groups are not new, they have been around since the first days of the personal computer. Originally they were support groups for people desperate for information on these new *gadgets*. This was especially true when few books, magazines or people with knowledge existed.

As the personal computer has changed, so has the nature of the user group.

Today, not only do we provide support for the beginning users, as well as intermediate and advanced uses, we also provide scholarships for high school seniors, community participation, a resource for small business, discounts on hardware and software for users, and lastly a place to go once a month to have a good time.

Membership Benefits

Why join a computer users group? Here are just some of the many reasons.

The MVCUG has been supporting the community of Sierra Vista and Cochise county since 1985.

Help

We have members from all walks of life and abilities. Officers are always a phone call away, and some members even make house calls (some charge a small fee).

Demonstrations

Not sure which software is best for you? Each month we demonstrate the latest and greatest software, as well as the trusty old standbys. Talk to people that actually use the software and hardware you are planning on purchasing.

Advice

Not sure what to buy? Our members are always willing to share their experiences, both good and bad. And remember, there is no marketing hype with our opinions. Just cold hard facts, and a lot of opinion.

Discounts

We offer discounts through national vendors as well as some local dealers. However, the biggest benefit is our annual fund raiser where you can buy software and hardware up to 80% off suggested retail.

Community Support

We have sponsored computer fairs, lectures, tutorials and specialized training all open to the public. We now offer 2 \$500 scholarships open to students within Cochise County.

Support when you need it

But the biggest benefit will always be support, support when you need it, to solve those problem that seem totally perplexing. Whether you are a beginner, intermediate, advanced or super user, the Mountain View Computer Users group is your key to getting the most out of your computer, and having a good time.

Sign-up Form

Check which you desire:

- Please add me to your mail list
 I would like to volunteer for occasional activities
 I would be interested in doing demo
 I am interested in reviewing software
 I am interested in the scholarship program
 I am interested in being an officer
- Macintosh Windows Linux
